

TAYLOR MOUNTAIN DIVISION

February 24, 2026

To Our Valued Customers,

Gem State Infrastructure through Falls Water provides wastewater service to the 182 customers in Taylor Mountain's sewer system.

Our highest priority is to safely and reliably serve our customers; this is why we continue to invest in our system.

Investment costs, sewage treatment costs and other factors, including inflationary pressures on materials costs, necessitate a rate increase of 4%, which is why we are writing to you today. This rate increase is effective March 1, 2026; you will first see the increase reflected in your March 2026 bills.

We know that the cost of so many goods and services continues to increase for all of us. We are sensitive to the impact of increased rates on our customers as we work to provide an essential service safely and reliably, every day.

If you have questions or concerns, please give us a call at 208-522-1300. Our regular office hours are 9:00 am to 5:00 pm.

Thank you.

A handwritten signature in black ink that reads "K. Scott Bruce". The signature is written in a cursive, slightly slanted style.
